THE MEDIATION OF GREAT BRITAIN. The following articles from the Washington Globe and the National Intelligencer, contain all the information upon this interesting subject, which the mails afford to-day.

From the Washington Globe of Monday. We understand that the British sloop of war Pantaloon, brought despatches to Mr. Bankes, authorizing him to tender the good offices of the British Government as a mediator in adjusting the difficulties now existing between the United States and France.

Whether any decision has been made upon this offer, or if so, what it is we have not been advised; but we cannot but hope, that the good offices of Great Britain in the character of a mediator, equally friendly to both the parties, may be so employed as to restore that amicable intercourse which has so long existed between the people and Governments of the two countries, without abandonment or prejudice to the principle which our Government has taken its stand, and in a manner satisfactory to France.

In any event, however, as a considerable period of time must elapse before the result of this mediation can be known, it must be obvious that the necessity for adopting the measures of defence recommended by the President in his special message remains unchanged.

From the National Intelligencer. Our Relations with France.—No doubt now exists that Mediation has been offered between the United States and France by the Government of Great Britain. We have reason to believe that the Executive of the United States, without consulting the Senate—was not known that it was necessary it should be so—has acted on this proposition, and that despatches announcing its determination are already on the way to the seaboard.

We do not know any thing of the particulars of either the proposition or the reply. Perish this morning's official journal may furnish some information respecting both. Meanwhile, lest for diplomatic reasons, a studious silence should be observed in that quarter, we think it proper, or the information of our readers, to state our impression that the proffered mediation by Great

Britain, as a common friend, has been accepted by the Executive of the United States. Such an offer could not indeed be declined by any nation not disposed to place itself out of the pale of the Law of Nations.

The reader must, however, bear in mind that, between national Mediation and Arbitration are not the same thing. Arbitration, accepted by both parties, amounts to a certain extent, an obligatory one. The acceptance of Mediation concludes nothing between the parties, but only leaves the door open for conciliation and adjustment, through the medium of a common friend, interested, with all the rest of the world, in preventing war or unnecessary disturbance of the peace of nations.

It is much, however, that intercourse between the two countries has been thus reopened, through a channel so respectable as to furnish a reasonable security that nothing that is not essential and conciliatory will be attempted to be transmitted through it from either side, and that such mediation has been accepted by the British Government. What the result of this new course will be, things are very uncertain, but we are certain of the amicable adjustment of our disputes with France, we say, with all the great and important interests of the world, are gratified at a precipitated quarrel between the two countries.

From the New York Evening Post. THE NEW SENATE.

The people have at last obtained the power in both Houses of Congress. The election of Mr. Walker, from Missouri, was a satisfactory consequence of the question between the two parties, and that misrepresentation which has so long prevailed and distracted the country for the last several years, disgraced the nation abroad, and as finally believed, been the cause of our difficulties with France, by their wretched and unreasonable opposition to the best interests of the country. This point is a great triumph for the Union is safe!

The following are the administration members of the new Senate: Maine—Mr. Ruggles, Mr. Shepley. New Hampshire—Mr. Hill, Mr. H. S. rd. Connecticut—Mr. Niles. New York—Mr. Wright, Mr. Tullnadage. New Jersey—Mr. Wall. Pennsylvania—Mr. McKean, Mr. Buchanan. North Carolina—Mr. Brown. Georgia—Mr. King, Mr. Cuthbert. Alabama—Mr. King. Louisiana—Mr. Nicholas. Mississippi—Mr. Walker. Tennessee—Mr. Grundy. Illinois—Mr. Robinson, Mr. Ewing. Indiana—Mr. H. H. H. Mr. Tipton. Missouri—Mr. Benton, Mr. Linn. Ohio—Mr. Morris.

Making twenty four members. Mr. Hendricks and Mr. Tipton have authorized a publication that they support the Baltimore nomination, and we add with confidence, that Mr. White will support the principles and measures of the administration as he has heretofore done. Mr. Black, of Mississippi, also, has publicly expressed his determination to abide by the decision of his own State, which has just been so largely in favour of Mr. Van Buren.

On all the nominations now before the Senate, as well as on all other nominations, it is interesting to the great body of the constituents, and on which they have spoken with a voice not to be misunderstood—the people will be heard and obeyed.

PHILADELPHIA. INDIAN MASSACRE IN INDIAN KEY. INDIAN KEY, 14th J. N.

We are in a state of consternation and dismay. The Indians have broken in upon the settlements at New River and Cape Florida, and plundered, destroyed and laid waste every thing that came in their way. We have been expecting an attack here for the last ten days, and have made the best preparation that we could to receive the enemy; by throwing up breast-works when with protect us so long as we can prevent them from landing, but our only force will be nothing if they succeed in effecting a landing.

Among the sufferers were Mrs. Ruby, her two daughters and one son. They were compelled to run 12 miles through the woods, and were nearly exhausted when they were rescued by some friendly Indians who carried them to a place of safety. They were nearly naked, and were suffering from the effects of the weather. They were rescued by some friendly Indians who carried them to a place of safety. They were nearly naked, and were suffering from the effects of the weather.

The above information was brought to St. Augustine, by some negroes belonging to Mrs. Anderson, who escaped, and brought to their master the melancholy tidings. The greatest distress prevails in St. Augustine, where, mothers and children, are in the extreme of anxiety and grief, for their husbands, sons and fathers, who may be slain or actually wounded.

AGUSTA, Ga. Jan. 25. AUGUSTA VOLUNTEERS. These brave fellows left our wharf, in the Washington, on Saturday at 5 o'clock, to rescue their Florida comrades from Indian captivity. They embarked in the presence, it appears, to us, of our assembled population of both sexes, and were cheered with a fervor and admiration, that still tingles through our nerves. They were escorted to the river bank by the Richmond Hussars, now waiting orders to follow them, and the Augusta militia, organized for the emergency. On entering the boat, they were addressed by Col. Wm. Cumming, who was answered by Capt. Ross, after which the Chaplain of the Arsenal offered up a short prayer for the success of the expedition, and the safe return of the gallant soldier to his family and home. Hamburg, ever burning with public spirit, cheered their embarkation by the firing of cannon, while their friends and acquaintances on this side, stood enough till the moment of departure, had hearts well filled to meet a great and brave unitary in the general shout, which bade them, God speed. Heaven grant, that none may be deaf to the grateful cheering, with which our city will hail their return!

It is of importance that troops should be sent to Cape Sable and New River, as it will cut off the supply of arrow root which is the principal food of the Indians, and which is manufactured by their women. These places abound in river Glades from Cape Sable and New River, in a day.

You can form no adequate idea of the distress which prevails along the coast. Several families have but recently settled, and had just got themselves comfortably situated when they were obliged to fly for their lives, leaving every thing they possessed in the world behind them, arriving almost naked at a place of safety. What is to become of so many distressed families I know not. Can nothing be done for their relief? They have gone to Key West for safety. The troops stationed at Key West were sent to Tampa Bay, but I understand that the United States frigate Constitution is now at that place, and is preparing to receive the fugitives.

The Seminoles, who are opposed to emigrating, have expressed their determination to use force to drive the country. So that we may be compelled to receive and determine resistance in any other mode to subvert them.

ANOTHER BATTLE AND SUCCESS OF THE INDIANS. The Savannah Government on the 25th Jan. has the following extract from the Jacksonville Courier of the 21st, detailing the particulars of another engagement with the Indians, with their triumph and intelligence from the Seat of War.

Mr. Hatch was barbarously murdered by the Indians at 300 yards from the outpost of the Greeno Proclat on the 15th inst., while employed in getting wood for the Steam Boat Florida.

From the Jacksonville Courier, 21st Jan. INDIAN HOSTILITIES. Another battle.—Mr. Deater with the Mail from St. Augustine, has this morning arrived at 9 o'clock, A. M. bringing the following melancholy and alarming intelligence.

On Monday, the 18th inst. Major Putnam, who was at the head of the Independent Company, styled St. Augustine Guards, at St. Augustine, proceeded to Mrs. Anderson's plantation on the Halifax River, to see in what condition the Indians who were reported to have been there, had left it, and to take away what provisions had not been destroyed. While there this company composed of the generous spirit of young men of St. Augustine, joined by a few from Mosquito making number about 20 men, was attacked by a party of it supposed 150. Messrs. Geo. Anderson, and Douglas Danmitt, standing on guard, saw two Indians approaching, upon whom they fired, killing one and wounding the other. Mr. Danmitt ran towards the fallen Indian and while stooping over him received a wound in the back of the neck. At this moment, the Indians rushed out of a scrub, did little more than shoot and commenced a furious attack upon Mr. Anderson's company, who from behind trees and the sides of the open ditch, exposed to the fire of the Indians, who were almost all killed or wounded. The Indians were not far from the plantation, and the Indians were not far from the plantation, and the Indians were not far from the plantation.

MORE INDIAN MURDERS. The Macon Telegraph of the 21st inst. says: News arrived in town yesterday of two men being killed in Baker county, by a party of 40 or 50 Creek Indians, and several others wounded. We have not time to state particulars.

It thus appears as though the Creeks and Seminoles were acting in concert in their savage warfare.

TOBACCO LANDS. THE subscriber offers for Sale his valuable Real Estate, situate on the north side of Severn River, opposite the city of Annapolis, containing upwards of ONE THOUSAND ACRES.

About Six Hundred covered with wood and heavy timber, consisting of White Oak, Black Walnut and Poplar, &c. The residue for the most part under good fences, the whole nearly surrounded by the waters of Severn River, and a wide navigable creek, emptying into the Chesapeake Bay, which affords convenient water carriage for wood and produce from almost every part of the land.

It is at present divided into two farms, both in a promising state of improvement, and possessing large banks of oyster shells, and other sources of manure in great abundance. Plaster has been found to act with great effect on these lands in promoting the growth of clover—the soil is naturally of an excellent quality, for grain and other crops, and particularly well adapted to the culture of first quality Tobacco. There is a good water mill upon these farms, on a dam in a small mill in Annapolis, both very convenient to this estate.

The buildings on both the farms are beautifully situated on eminences commanding extensive views of the river and bay, and in tolerable repair. As persons are inclined to purchase well view and judge for themselves, it is deemed unnecessary to be more particular in the description of this property. It will be found on examination to be worthy the attention of those who have money to invest in real estate, and particularly of such as are skilled in cutting and setting timber, of which there is a great quantity near the water, and more remote than half a mile.

These farms will be divided, to suit purchasers. The terms will be moderate and a long credit given for part of the purchase money, or for the whole, it will be secured—possessions may be had at any time.

For further particulars enquire of N. Brice, Baltimore, or to the subscriber living on the premises.

F. B. 4. CHARLES C. BRICE.

THE THIRD VOLUME OF THE CULTIVATOR WILL be commenced on the first of March next. The terms will continue to be FIFTY CENTS per annum, payable in advance.

We tender our thanks to gentlemen who have kindly aided in the circulation of the CULTIVATOR, and respectfully solicit a continuance of their good offices in its behalf. It is our wish to make it a more useful and interesting volume than ever, and to increase its circulation, and to increase its circulation, and to increase its circulation.
